All members must maintain a minimum training attendance of 50% of the training offered on Thursdays (60% for captains). All members must complete 100% of the mandatory annual training. Members attending less than 100% of the mandated training in the year will be suspended from responding to emergency incidents until the training is completed. Members will have six months after the year-end to complete the mandated training or dismissal will occur.

- CPR/AED,
